

Members are requested to NOTE the report and CONSIDER the recommendation

Background

The Parish Council Took resolved to take over responsibility for the funds, the transfer of £4017.81 has now taken place, a donation of £40.00 has also been received.

Members previously agreed once the funds had been transferred to consider the request to release funds for a back up battery, at a total cost of around £600.

The back up battery is required to address the issue of breaks in power supply. It is not urgent or necessary, but would make upkeep of the clock easier. Mr David Tapscott is the main contact for the maintenance of the clock.

Recommendation

Members to CONSIDER releasing funds of up to £700 (due to time lapse of 5 months) from the War Memorial Clock Funds.

Additional Information:

The Parochial Church Council (PCC) is consulting with the Bristol Diocese and may request a meeting to discuss taking over the management of the funds.
