

Members to NOTE and CONSIDER the invitation from Wiltshire Council

Dear Town & Parish Councils

Wiltshire Council values the importance of Town and parish councils and their role in climate action and therefore, is organizing a **Climate Action Planning Workshop on 27th March 2023, 10am – 4pm**. This workshop will provide a good grounding on the context, drivers, facts and figures related to climate change from global to local levels.

A follow up event is also planned on 17th May 2023, 3-5pm, for the participants who will attend the main workshop or have already attended main workshop that was previously run in November 2021. This will provide them the opportunity to share progress, learn from each other's experiences and discuss ongoing support.

To participate in the workshops please register by sending us below given details at climate@wiltshire.gov.uk or simply by responding to this email before **1st of March 2023**:

- Name & email address
 - Job Title
 - Council Name
 - Workshop to register (27 March and/or 17 May)
- (Participants registering only for follow-up event must mention the date they attended or are intending to attend the main workshop)

Please note participation slots are limited, local councils are requested to nominate not more than two participants each. Places will be offered on a first come first served basis to a maximum of 50 in total. Preference will be given to the councils that have not previously participated in the workshop in November 2021. **You will receive registration confirmation email from us soon after 1st March 2023**. The workshop will be held online and run by Centre for Sustainable Energy.
