

To NOTE and CONSIDER the way forward in respect of frequency of meetings and meeting venue and day of meetings

Meeting Frequency

For the past year the Council has held meetings on a six-weekly cycle. This has allowed for more Officer time to carry out the functionalities of the Council, which hopefully can be seen from the changes made in the last twelve months.

However, it has been mooted that Councillors wish to return to monthly meetings.

Meeting Venue and Meeting Day

Since May 2022, the Parish Council has met in the Parish Church. Whilst Church Members have been very accommodating, it has been noted that it is felt not to be the right venue to hold Council meetings, due to layout of seating, sound issues and parking.

Wednesday evening is also not a preferred evening for some Councillors.

To CONSIDER:

- change of venue to the Jubilee Club House or Parish Hall
- change of meeting day to Thursday
- change of meeting frequency commencing ~May 2023
