

Platinum Jubilee Gas-Fuelled Beacon

Bullfinch Gas Equipment

The beacon's burner-head is in the shape of a globe, representing the countries of the Commonwealth, surrounded by a Crown. It is of lightweight construction and comes assembled and complete, with the exception of the gas cylinders, which must be purchased separately. One 47kg propane cylinder or 2 x 19kg cylinders are recommended to give a full flame for a good three quarters of an hour.

These cylinders can be purchased from Flogas Britain who have been supplying Liquefied Petroleum Gas for over 35 years. They have the largest national delivery network in the UK, and hold the Carbon Trust Standard and Royal Warrant. Contact them as soon as possible to avoid delays or disappointment. Phone: **0800 574 574** or contact them via their website: www.flogas.co.uk. For their propane safety data sheet go to <https://www.flogas.co.uk/app/uploads/2-0-propane-cylinder-safety-sheet-v2-1-1.pdf>. The Gas Torch needed to light your beacon safely requires a 400g cylinder of propane with CGA600 fitting - Bullfinch No 1644 or Rothenberger or equivalent. Travis Perkins, Screwfix, Plumb Centers and some DIY stores should have these as stock items, or search online.

The Platinum Jubilee Gas-Fuelled Beacon Package contains:

- Burner unit with Crown & Platinum Jubilee insignia
- 2m high stand
- Ground anchor and rope for fixing the stand to the ground
- 10m hose with the regulator for connecting to the gas
- Gas torch for lighting
- Spanner
- Leak detecting fluid
- Hose assembly and Y manifold to link 2 cylinders
- Lighting and safety instructions

The above items are packed into 2 strong cartons. The tripod describes a circle area of about 1.32m diameter and the beacon has an extended height of about 2.15m.

The beacon is stable in the wind. It is supplied with a ground anchor and rope for securing to the ground if this is possible, or we would recommend the use of sandbags. Full instructions are provided for this. The beacon must be supervised by two people at all times when lit and a fire extinguisher must always be available. It is important that supervision should be undertaken by those who are competent and it is essential that a lighting trial

takes place before the event to ensure that everyone is fully trained and familiar with the operation. The price of a gas-fuelled Platinum Jubilee Beacon is £490 plus VAT, including carriage to your door within UK mainland (Highlands and Islands excluded). There will be an extra charge for other areas.

Some of the benefits of this style of beacon are that it can be seen for miles once lit, is suitable for all manner of high

and low locations, is easily collapsible and once used can be stored away for later use.

To order your beacon please contact:

Bullfinch Gas Equipment,
Kings Road, Tyseley,
Birmingham, B11 2AJ.
Tel: 0121 765 2000
Fax: 0121 707 0995
