

Members to NOTE the following and CONSIDER the way forward

The Council has had an offer of saplings from a resident. She has 10 saplings (oak, chestnut and sycamore) ready for planting in the spring and she's happy for them to be planted anywhere in the village. She is also happy to plant and tend some more for us if we would like them.

Recommendation

The Council could use these saplings and purchase additional trees as part of the Platinum Jubilee celebrations - if a suitable location for planting can be identified.

Members to decide the way forward.
